

# Summary Report

09/02/2021 – 09/12/2021

TOTAL HOURS

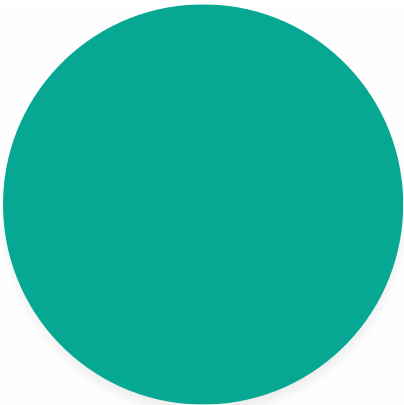

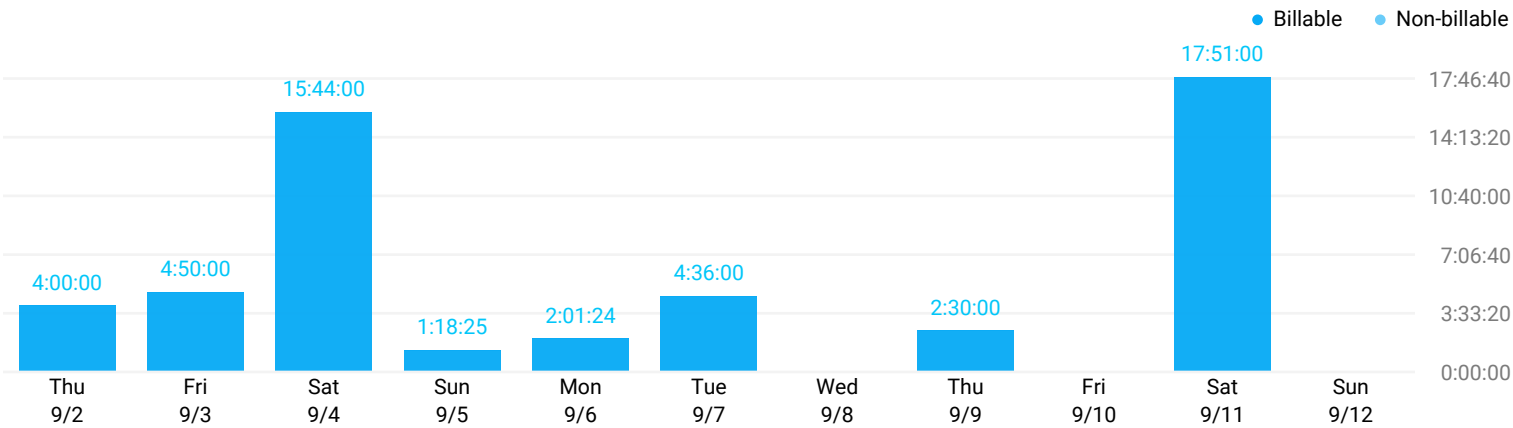

52:50:49

BILLABLE HOURS

52:50:49

AMOUNT

0.00 USD

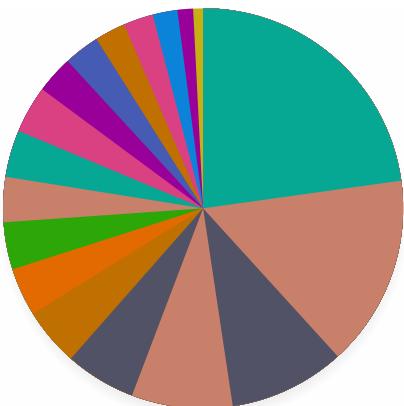

PROJECT

● FIT2101\_Team3\_ltr1

DURATION

52:50:49

TIME ENTRY

- Sprint 1 Planning Meeting 12:02:00
- Sprint Review and Retrospective 8:10:00
- Sprint Review, Retrospective, Discussion on Storyboards and Time Tracking Refinement 5:00:00
- Sprint 1 Review (Backlog Refinement, Toggle correcting task descriptions, Make submission) 4:16:00
- (2) As an end-user, I want the app to visualize the data as a line chart so that it is easier to identify trends. (find a free COVID-19 API and create functions to get COVID-19 API) 3:01:00
- (2) As an end-user, I want the app to visualize the data as a line chart so that it is easier to identify trends. (Research and adding line chart to analysis tab) 2:30:00
- (18) As a user, I want a sidebar so that I can quickly navigate to other pages. (Selected template with sidebar) 2:01:24
- User stories with definition of done 2:00:00

● (18) As a user, I want a sidebar so that I can quickly navigate to other pages. (Added Sidebar)	2:00:00
● (11) UI mockup / Wireframe. (Make wireframes and storyboards.)	2:00:00
● (11) UI mockup / Wireframe. (Do research on websites from other services)	2:00:00
● (14) As a user, I want a dashboard so that I can see the overview of the datasets available. (Helping Bryan to get his configuration works)	1:35:00
● (7) As a client, I want a database so that I can save the user data. (Creating backend server folder structure)	1:30:00
● (17) As a client, I want to have a web application with MVC so that I can access the application anywhere. (Vue.js meeting)	1:20:00
● (14) As a user, I want a dashboard so that I can see the overview of the datasets available. (Getting different template to work)	1:18:25
● (14) As a user, I want a dashboard so that I can see the overview of the datasets available. (Researching how to create MPA with vue.js)	1:00:00
● (7) As a client, I want a database so that I can save the user data. (Connect backend server to database (mongoDB))	0:42:00
● Fixed Time Tracking Description on Toggl	0:25:00
