

Retrospective

Main Criteria

- Has the retrospective identified genuine problems with the team's policies and practices?
- What strategies has the team decided on to address any identified problems?
- Are those strategies likely to work?

What went well?	<ol style="list-style-type: none">1. Time Tracking2. Efficient Standup Meeting3. Product delivered in time
What could have been done better?	<ol style="list-style-type: none">1. Git commit messages could have been more detailed and accurate
What will we try next?	<ol style="list-style-type: none">1. Follow the designated format strictly for writing the git commit messages.
What questions do we have?
